Semi-self-sufficiency is defined as the ability to be autonomous between aid stations in terms of food and equipment and also to be safely able to adapt to any problems (bad weather, physical distress, injury...).

This means that the following rules are necessary:

- athletes must always carry all obligatory equipment during the entire race.
- food and drink acquired in aid stations must be consumed there. The Organizers only provide water or electrolyte drinks for flasks/water bottles and camelbags. When leaving an aid station, athletes must have a sufficient quantity of water and food to reach the following aid station.

Only runners carrying a visible race number have access to the aid stations.

Food and liquids from the aid stations must be consumed at aid stations; it is strictly forbidden for athletes to drink from the bottles provided by the Aid stations: personal cups or flasks must be used. **Garbage must be thrown into the trash cans present in every aid station.**

When leaving each aid station, athletes must have sufficient liquid and food to reach the next station.

Check points shall be set up along the route, where members of the staff shall monitor the athletes as they pass and also may apply random checks to verify that the athletes are in possession of the mandatory race equipment. **Should anyone refuse to undergo the check on the mandatory race equipment, they shall be disqualified immediately.**

There is another aid station at the finish line.

Art. 10. ASSISTANCE DURING THE RACE

Assistance from family or team members is permitted at all aid stations, in a specific area, and with the agreement of the head of the station:

Only one assistant per athlete will be admitted only when the athlete has arrived.

Being accompanied by any person not registered in the race on a stretch of the race or along the whole race is forbidden.

Art. 11. DROP BAGS

Each athlete may leave his/her own bag/backpack with a change of clothes to use at the finish. The bag can be deposited latest 15 minutes before race start.

Athletes are advised not to place objects of value in the bags; the organizers accept no liability for any theft, loss or damage of bags or their contents.

Bags with clothes left at the start may be collected at the finish upon presentation of race bib. The Organizers will not send uncollected bags to participants' houses. Bags that are not collected after this deadline will be immediately destroyed for reasons of hygiene.

Art. 12. RACE ROUTE

Krali Marko Trails race routes require the ability to run on particular kinds of terrain, trails and impervious or treacherous paths (slopes with rocky outcroppings or debris) that are sometimes without barriers.

a) **KAMENA BABA TRAIL 35K 2023** takes the following route:

Varosh (Markov Grad) - Markovi Kuli - Nakovalna - Javi steni - Crveni steni - Treskavec monastery - Leska - Pazojca - Sredno Pole - Srednorid - St. Petka - Kamena Baba (Kukul) - Chair - Sveta Petka - Pade - Ridon - under the peak of Edinak - Glajca - Sveta Petka - Vrtop - Sredno Pole - Nakovalna - Zagrad - Varosh

The length is 35.5 km with an altitude difference of 1,890D+/1,890D- meters.

b) **TREKSAVEC TRAIL 18K 2023** takes the following route:

Varos (Markov Grad) - Markovi Kuli - Nakovalna - Javi steni - Crveni steni - monastery Treskavec - Leska - Pazojca - Sredno Pole - Nakovalna - Zagrad - Varos

The length is 17.9 km with a height difference of 980D+/980D- meters.

Should adverse weather conditions occur or one or more paths become inaccessible, alternative routes will be outlined at the briefing before the start of the race.

Race kilometres are not marked. Athletes should strictly adhere to the marked race route and avoid taking shortcuts or cutting out sections of the route. Any departures from the official route may lead to disqualification and shall be at the sole risk of athletes.

Art. 13. INSURANCE

Athletes are highly recommended to take out a valid individual insurance policy that covers find and rescue costs as well as incurring medical costs.

Athletes are responsible for handing over their personal file to their insurance company if necessary, within the given timeframe.

An insurance policy provided by the Organizer will cover related risks for all participants that may occur during outdoor activities.

Art. 14. SAFETY AND CHECKPOINTS

Members of the Organization and the Mountain Rescue Teams, in constant contact with Race HQ, will be positioned along the race route. Paramedics shall be positioned at different points along the race route, but also at the start and finish.

Medical assistance teams and Mountain Rescue teams will be provided along the routes in case of emergency. In case of injury or other necessity, athletes will have to call the SOS phone provided by the organizer on the Bib-number. If they are in an area which is not

covered by phone signal, they will have to convey the message to the first next checkpoint – so that actions can be taken as soon as possible.

However, by considering the inaccessible terrain and unforeseen mountain weather, the first responders to such events are the runners themselves. Therefore, each runner is obliged to stop his/her race and to be actively involved in the assistance and rescue of other injured runners.

By submitting the registration form, each athlete confirms that it is aware of the dangers of competition in nature and takes the risk by themselves. The organizer will do its best to reduce the risks. However, we kindly ask the athletes to follow our advice and recommendations.

In order to preserve the safety and health of athletes, regulators and medical teams checkpoints have the right to stop the race and exclude those athletes who have been assessed that are no longer able to continue the race. In any event, athletes are required to follow instructions from controllers and medical teams. Any violation of these guidelines will lead to the disqualification of an athlete, and if he/she decides to continue at all costs, the organizer assumes no responsibility for possible side effects.

We advise all athletes regularly to monitor their health status and also, recommend a stress test a month or two before the competition to determine the level of fitness/stamina for this type of sport which requires a high level of endurance.

Each athlete that has any disease or medical condition is advised to consult a specialist for permission to participate in the races, and their doctor must notify the organizer of the race.

Art. 15. ENVIRONMENT

The race shall take place in a natural park area with a natural ecosystem. Participants are therefore required to fully respect the environment, in particular by not leaving rubbish, picking flowers or disturbing the wildlife. **Anyone found leaving rubbish along the route shall be disqualified from the race.** In the various aid stations there are rubbish bins into which athletes may throw their rubbish. The organizers advise athletes to carry a small bag for collecting any tissues which can then be disposed of at aid stations.

Athletes must follow the outlined paths and avoid leaving them so as not to cause damage to the surrounding environment.

In order to reduce the use of plastic, there will be no disposable cups available at aid stations and the start/finish area thus athletes must bring their own cups/flasks.

Art. 16. WEATHER

In case of adverse weather conditions (dense fog, snow or thunderstorms), the organizers reserve the right to make last-minute changes, even during the race, to the race route in order to eliminate potential hazards or conditions that could cause hardship for participants. The staff shall inform the participants of any changes. The organisers also reserve the right

to suspend or cancel the race if the weather conditions are such that they put athletes, staff or medical teams at risk.
